STUDENT FEEDBACK 2021-22

Syllabus is suitable to the Course

204 responses

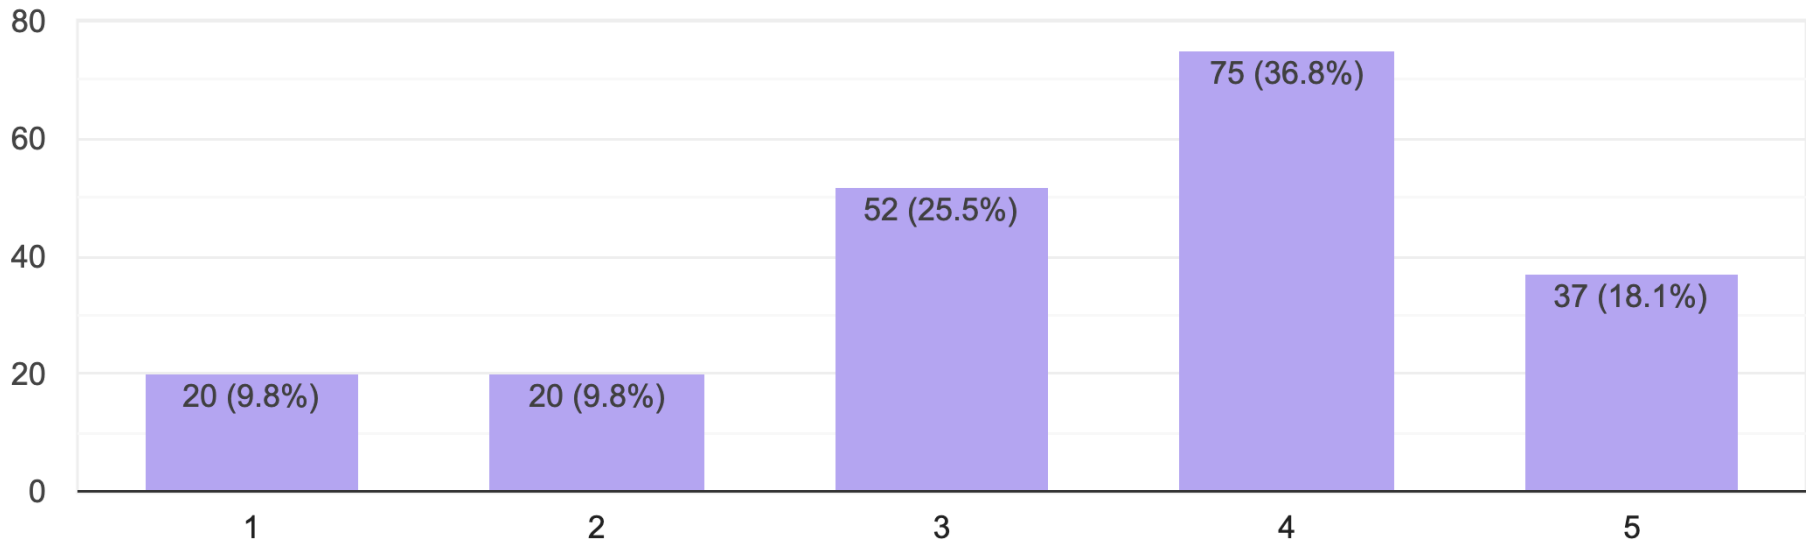

Syllabus is need based

204 responses

Aims and objectives of the syllabi are well defined and clear

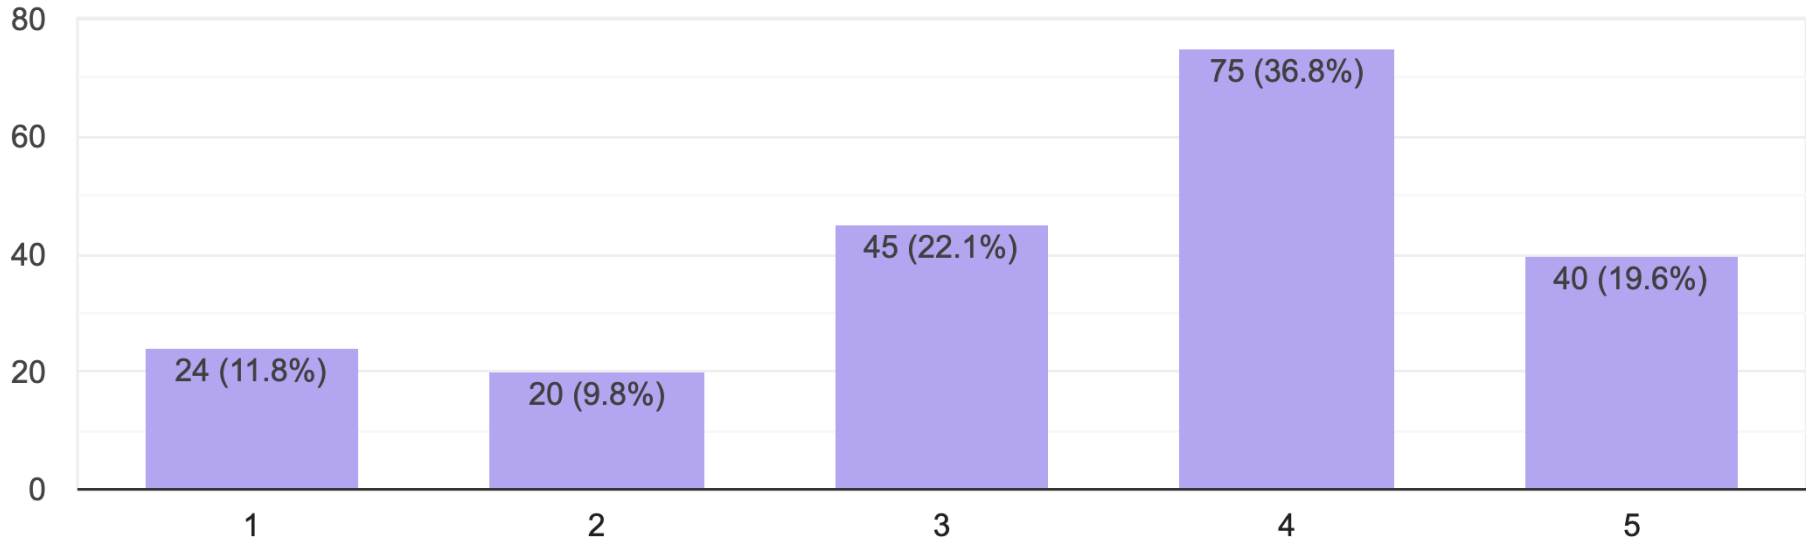

204 responses

Course content has corresponding reference materials

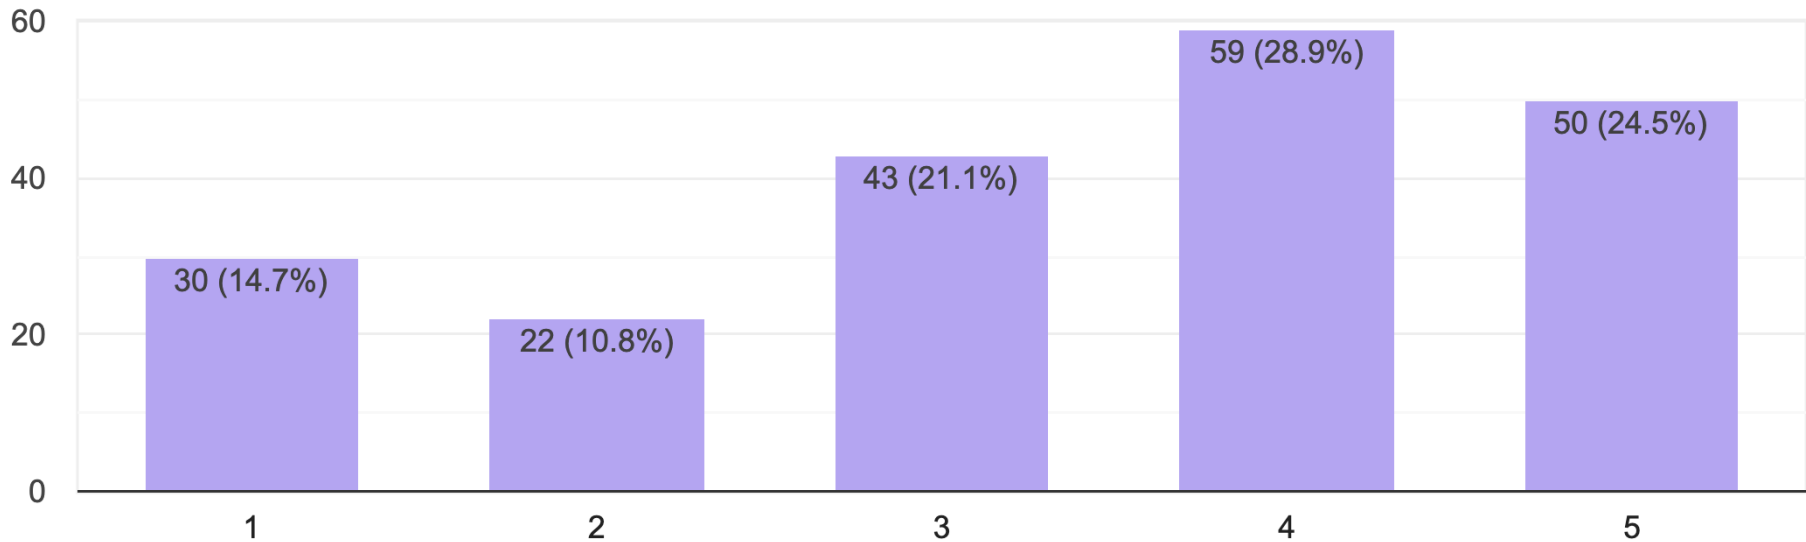

204 responses

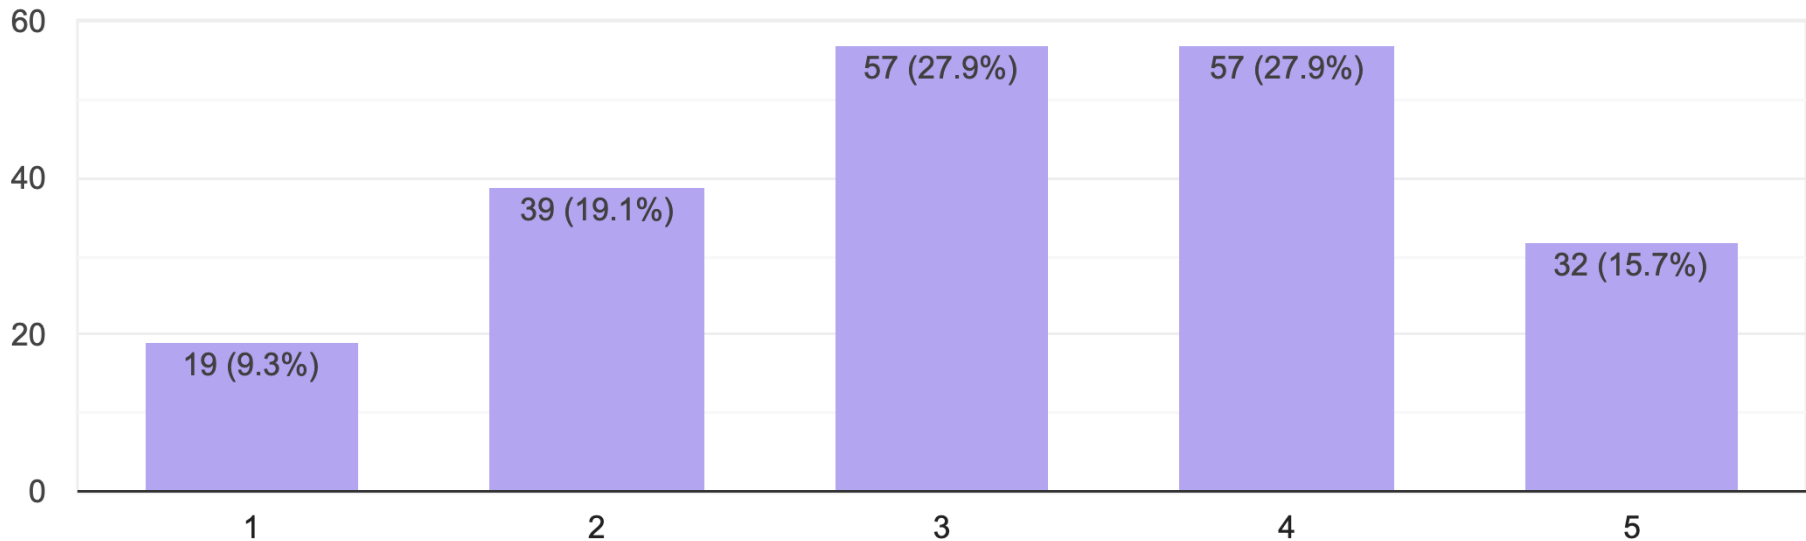

Sufficient number of prescribed books and reference materials are available in the library

204 responses

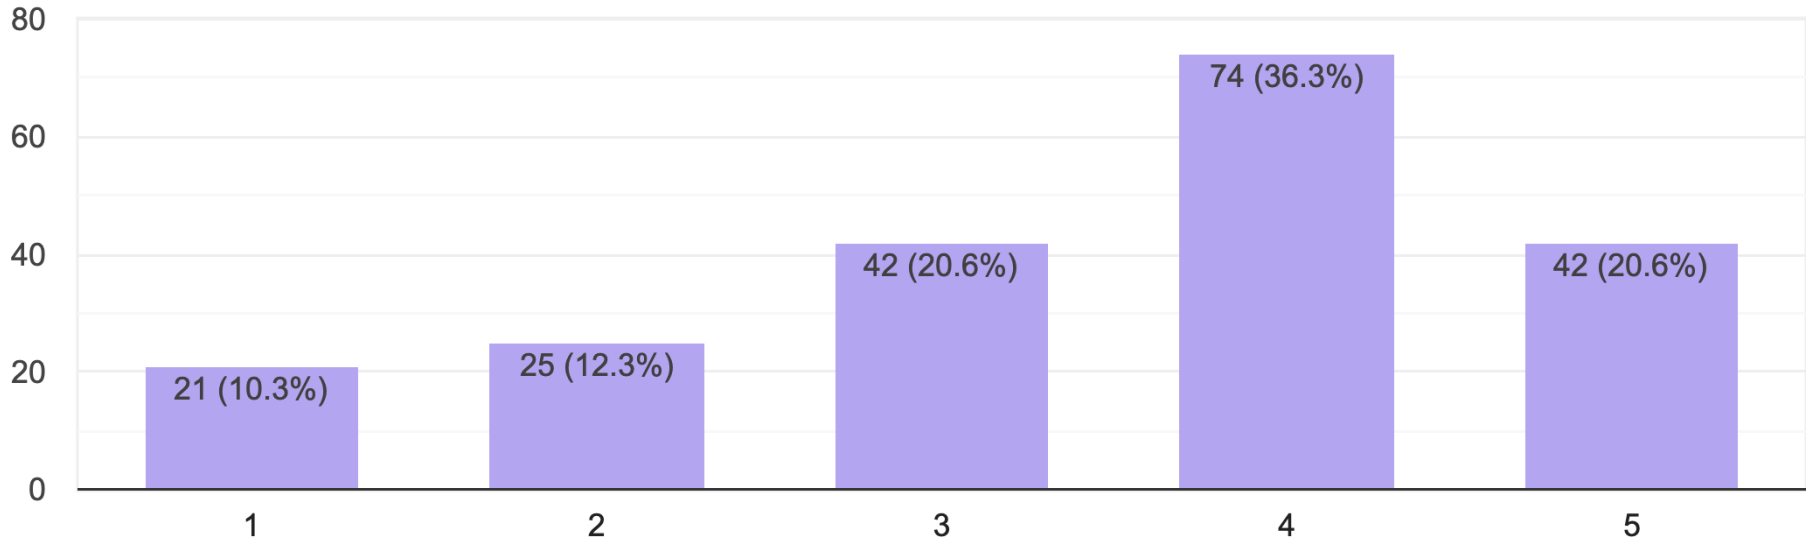

The syllabus has good balance between theory and application

204 responses

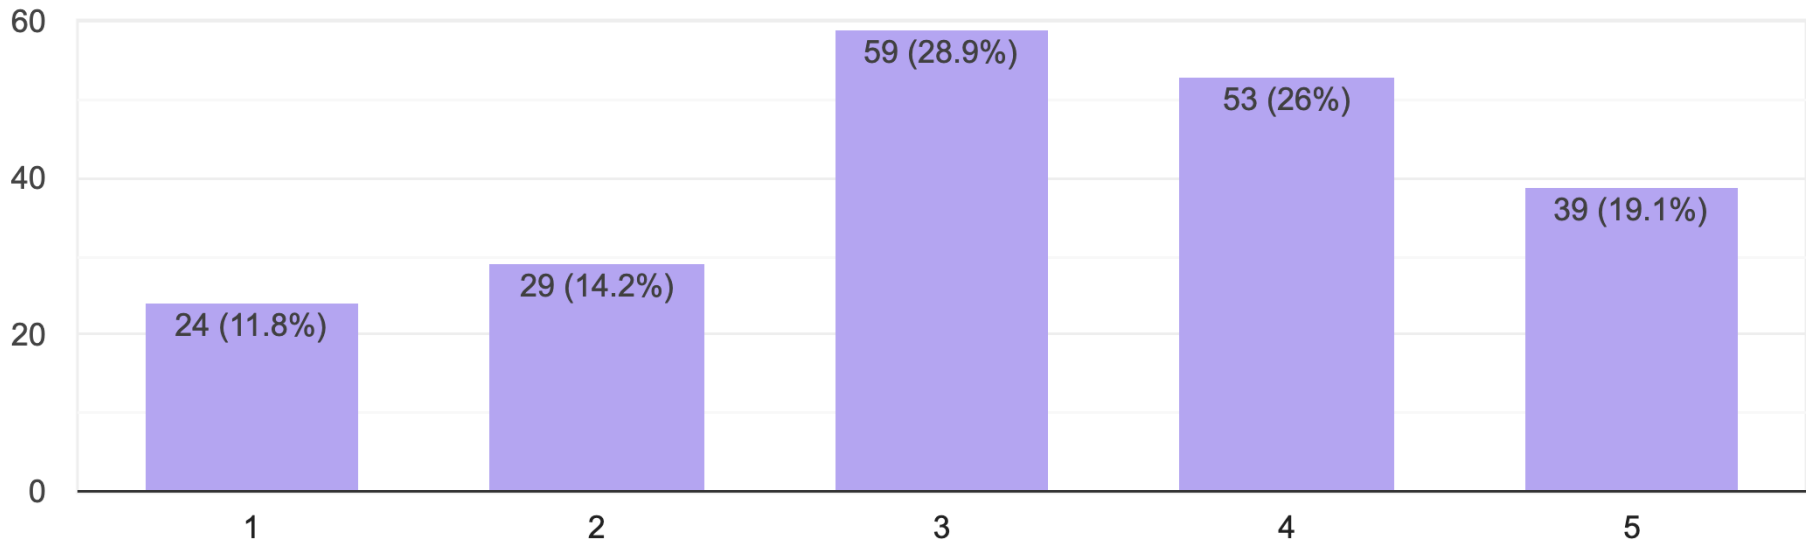

The syllabus generates interest in the subject area

204 responses

The curriculum has prospects for higher education/employability

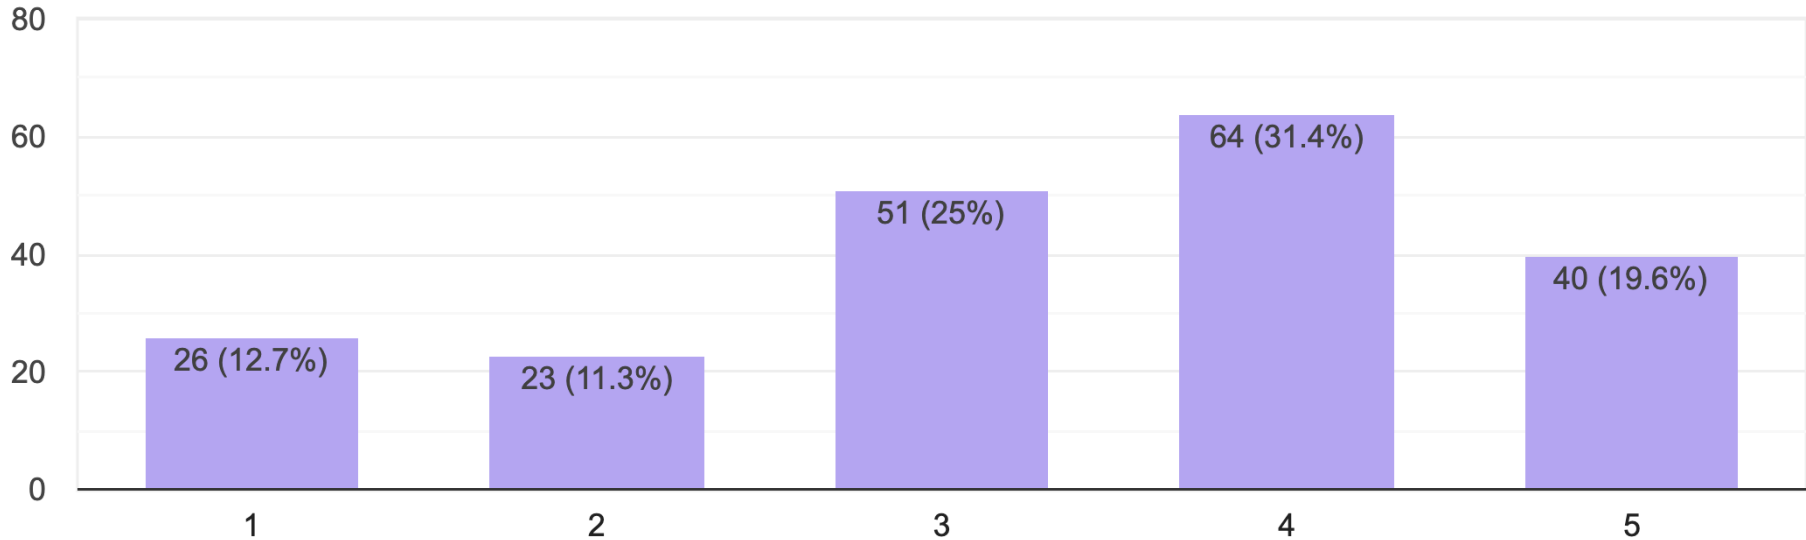

204 responses

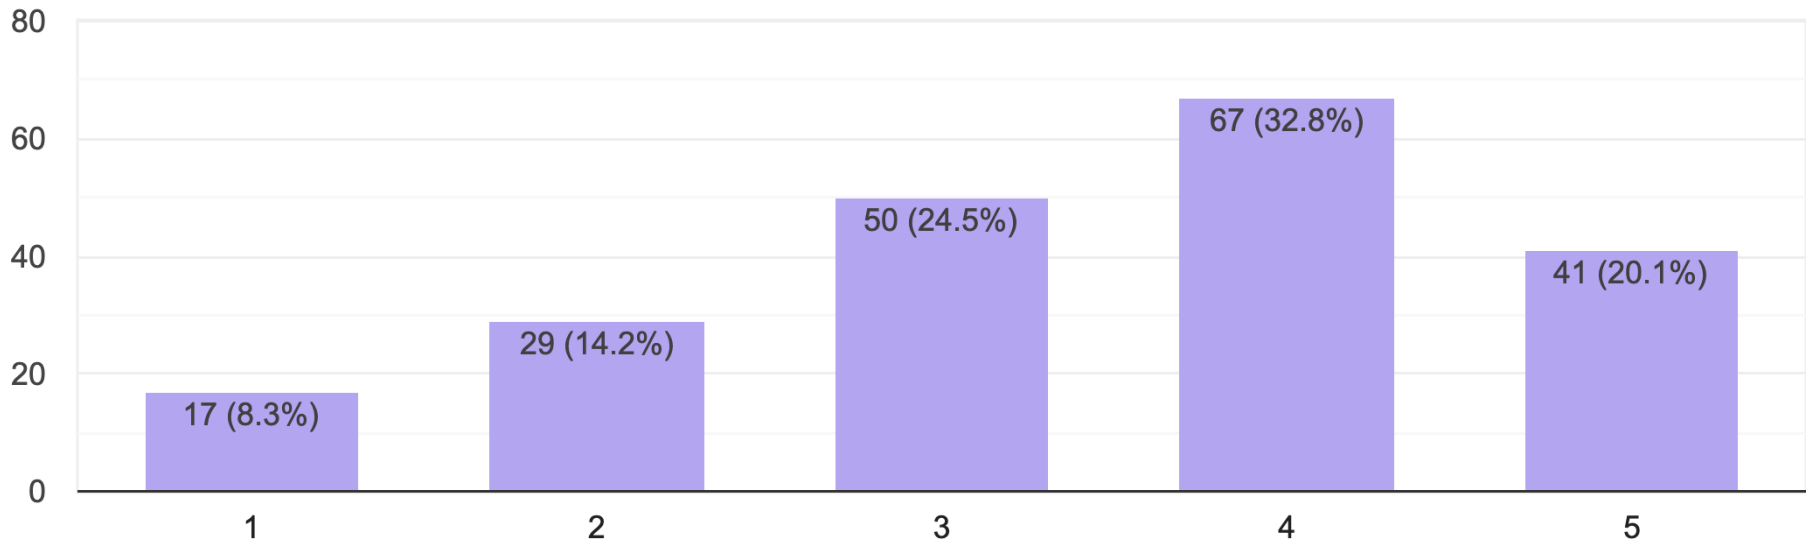

Syllabus can be covered on time

204 responses

The curriculum has scope for internship/training/research

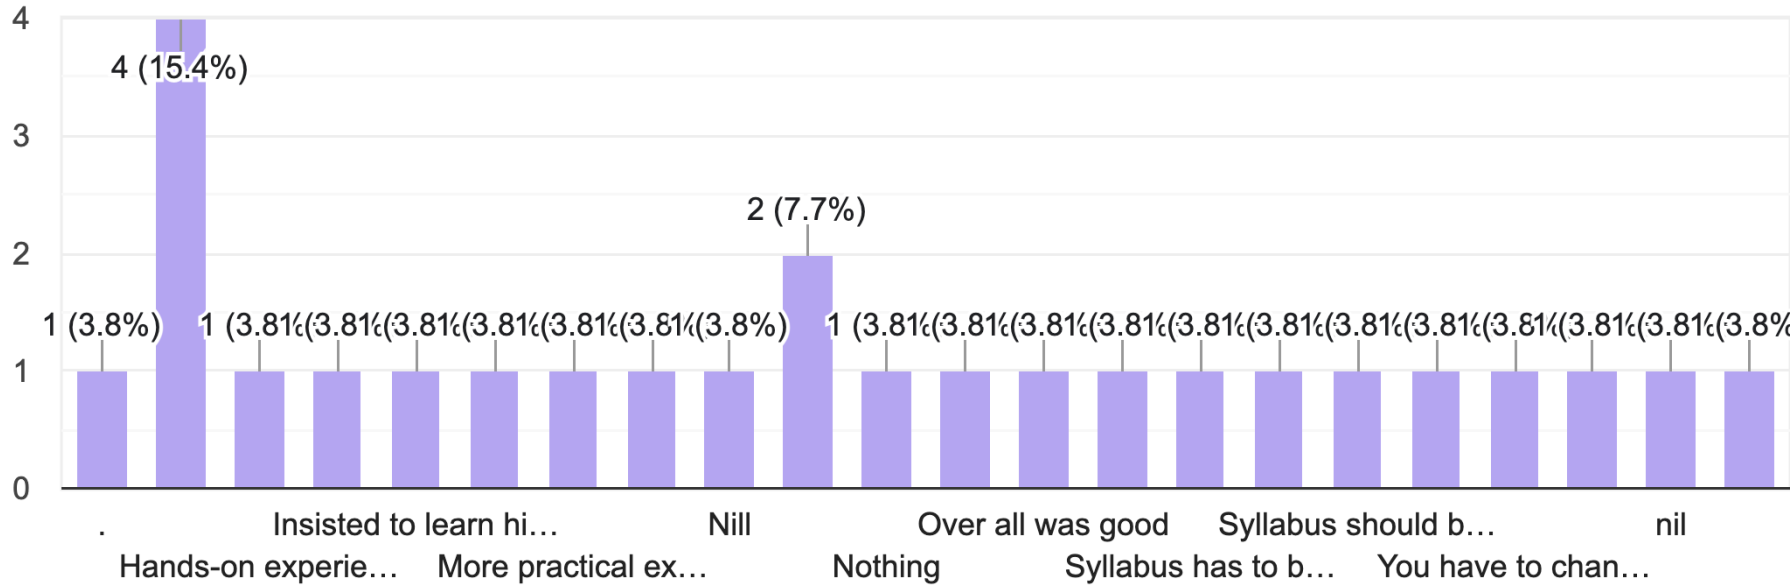

204 responses

Remarks, if any:

26 responses

- Good
- Syllabus should be competitive exam centered
- Please do incorporate more practical knowledge discussions and lectures to get acquainted with core application
- Insisted to learn hindu oriented literature and ancient methods of communication and journalism
- Good
- Overall good
- More practical experiments is needed than theory

- Syllabus has to be precise
- Need improvement
- Hands-on experience/ training in basic instruments must be provided for the science students
- Syllabus is good but need to change the syllabus of second semester English paper because there is no need of that paper for science students.
- Over all was good
- Many topics are repetitive and many are irrelevant.
- You have to change the syllabus and include more deserving topics and subjects also increase more application level topics.
