Decisions / suggestions:

- ① The core course of Sem I BSc Physics & BSc Physics Instrumentation program 'Methods of Physics' is to be modified to reduce the content overload and it should have a module on the methodology of science.
- ② The course 'Environmental Physics & Human rights' is to be included in Semester V of the program.
- ③ Special Relativity may be made a part of Mechanics course of

BSc physics; Astrophysics may be excluded from the syllabus of BSc physics.

④ Slight modifications in the syllabus of the complementary courses may be made so that it is supporting the core courses of the complementary students.

⑤ 'Nuclear & Particle physics' of BSc Physics Institute may be removed to include 'Environmental physics & Human rights'.
