8. Dr. Prakashan K. " 
9. Sandhya Krishnan K.R. " 
10. Dhanya Balakrishnan " 

The faculty members of the Department of Zoology met several times, discussed and worked out the format for the proposed revision of undergraduate programme in Zoology.

The first preparatory session was organised in the department library on 30-8-2019. The members attended the discussion and formed a frame work for the changes in the undergraduate syllabus.

In the second step, teachers were grouped in to four and the 16 courses of BSc Zoology including Complementary course were also divided into 4 groups. Each faculty group was allotted one bunch of four courses from which each member chose two for revision.

Meeting of the BoB was held at the Computer Laboratory with external members on 13-12-2019 and

scrutinized the revised courses in the third phase. Dr. Shaji Thomas and Dr. Reshad K.S. actively participated in rectifying the syllabus.

Blue print and model Question Papers were then done for each revised course by each faculty member which was the fourth phase. Faculty members again met in library on 20.1.2020 and approved and approved the revised syllabus to be implemented from 2020 admission onwards for submission to Academic Council.

Ernakulam.
20.1.2020.
