MAHARAJAS' COLLEGE, ERNAKULAM TO LAUNCH INDIA'S FIRST CERTIFICATE PROGRAMME ON "INTANGIBLE HERITAGE TOURISM" (CPIHT)

- 1. Continuous disasters during the past three years, including the Kerala Floods (2018 and 2019) and the current Pandemic Covid 19 (2020), has affected the tourism industry in India. It is under pressure to adapt itself to meet the many new challenges. It is the right time for a paradigm shift in our approach to heritage. We need to look beyond the traditional tangible aspects of heritage towards intangible heritage, with its resilience power and extensive use of the digital medium.
- 2. At this stage, it is appropriate that, Maharajas' College, Ernakulam, is going to bring under one umbrella the two sectors Heritage (Intangible) and Tourism by launching a Certificate Programme on "Intangible Heritage Tourism" (CPIHT)- the first of its kind in India. It offers exposure of students to the fundamental principles of heritage especially intangible heritage as well as tourism with local case studies of resilient heritage and responsible tourism. The fact that Kerala has 4 out of the 13 UNESCO Representative List of Intangible Cultural Heritage subscribed from India will be of advantage in this regard.
- 3. All the activities of the Program will be arranged online, binding to the Covid protocols. The Program consisting of 60 hours will be completed in 6 months. There will be weekly sessions of 4 Hours which will be scheduled on Saturdays. There is no age bar. A Bachelor's degree from any University in India or abroad approved by UGC is the eligibility for applying.
- 4. Program fee will be Rs5,000/-. For Students/Staff of the Maharaja's College, it will be Rs.4 000/- and for Foreigners it will be US Dollar 100.
- 5. Scope:
 - a. Potential employers include international organizations, national agencies as well as private sectors in the field of tourism, heritage, museums etc.
 - b. The Certificate Program, being the first one of its kind in India, will open floodgates for studies and research in the fields of Intangible Heritage Management and Indian traditions which is envisaged in the New Education Policy.
 - c. The students will also gain essential knowledge and skills to carry out independent studies and research in Heritage and Conservation projects at Museums, Heritage sites and Tourist places.
 - d. Staffs of tourism projects like Sustainable Tourism, Eco-tourism and Accessible Tourism are the potential stake holders. The Program will help them to remain updated about the field.
 - e. Those employed in tourism as Tour Guides will be exposed to new trends of interpretation thrown open by heritage resilience
- 6. Administration
