various resources & learning materials available in the dept & the college have been pointed out.

The possible challenges & student contributing in term of learning effort are clearly explained to the mentor students.

The mentor students pointed out the difficulty that they perceive to pursue the programme and demanded support measures.

The following decisions have been made on the basis of deliberation conducted.

Rahul Rajan is selected as a Mentee from the II Year Honours Batch due to his continuous absence in the class.

02/07/2018

While mentoring Rahul said about his feeling of lack of interest in studying. He started developing such a feeling after bunking classes for a few times. He lost the continuation of some of the subjects. As the mentor, I asked him to attend the class on a continuous basis and offered to arrange help from the concerned teachers. Then he agreed to study well.

1/8/2018

A second mentoring session for

(1) The mentor students are advised to read & conduct discussion on the suggested topics from such reference books that support the students with initiating explanatory full of real world examples.

(2) The mentor students are advised to discuss at least one event that occurs in the society & unravel the economic dimension/aspect of it.

(3) Resolved to prepare a basic document that

Rahul is done for reviewing the progress. Rahul has shown improvements in his presence in the classroom. He shared his interest to do extra readings. I suggested him to start with reading news papers. We decided to have a monitoring also in this regard.

12/09/2018

Rahul came for a third mentoring session. Lack of interest in studies to a small extent was noticed again in Rahul's behaviour. He is seen avoiding classes with his friends. A serious discussion in the regard has been done in the session. He said about his difficulty in handling mathematics and statistics related papers. The need for hardwork and consistency is conveyed to the

Minutes of the mentorship programme

(4) Decided to conduct the next phase of mentorship programme to the group in the form of personal interview activity

(4) Decided to conduct the next programme of the mentorship activity as a group exercise where the mentees present one social aspect explaining the various socio-economic aspects.

Discussion & Decision:-

The students presented the economic issue of eviction consequent to the land acquisition for widening the Edappally - Perambur National Highway. The discussion concluded with the decision to re-start the issue by using the

student. 10/10/2018
Continuous mentoring and support is felt needed in Rahul's case. Though he is a very much well behaved student, he is struggling with his studies. He repeated his difficulty in understanding the portions. As exams are approaching I have arranged a few bright students of the class to support students who are finding it difficult to pick up. I am hopeful that it will help Rahul to improve.

Session 2:-

Minutes of the mentorship Programme
Date & Time : 13/08/2019 @ 3:30 pm
Venue : 2nd Class Room

Session of Personal/Individual Interaction

(1) Aswathy MS.

Evaluated the ~~previous~~
previous two sessions and its
benefits to her. She pointed out
difficulty in dealing with
social/economic issues in the
presenting by individual effort.
However, the task became ~~easy~~
much simple & easy once

Albiya Sulthana was selected
as a Mentee from IInd Year Honours
Batch due to her poor performance
in the class tests conducted.

02/07/2018

Albiya Sulthana seems to be
attentive in the class. But in a
class test conducted, she made a
poor performance. She was called on
to discuss about what is happening.
She said she understands everything
when she is in the class. But
while writing exams, she is not
able to do well. Moreover, it is seen
that she is resorting to unwanted
practices in the examination hall.

I asked her to write what she
hears in the class in her own words
for a correction by teachers of

different subjects so that we can
check whether she understood things
clearly. And she was advised to learn
well and appear for the exams. All
support from the part of teachers are
also offered.

1/8/2018

Albiya Sulthana met for the second
time as a Mentee on 18/08/2018. As suggested
in the first meeting, she is waiting
herself the portions covered in the
class. But there also she has not done
some of the topics. She said that, it
is helping her to improve herself in the
level of understanding. She is also
asked to start reading an English
news paper.

13/09/2018

The third mentoring session of

started to work as a group.

(2) Chaitudasy B.

Being an athlete he found it very difficult to attend the first two hours of regular class. However, he is consistent with the training. Coach, made some changes in the training schedule so that it became more helpful to him to reach the class.

He also felt that it ~~became~~ became difficult to identify the learning transition of each & every social issue.

Alfiya is carried out as a review of what had been conveyed in the last session. As a mentor, Alfiya is doing well in her studies, I guess. She has good responses in the classes too.

10/10/2018

Continuous mentoring and support is felt needed in Alfiya's case, too as exams are fast approaching. Alfiya expressed some concerns regarding her studies such as forgetting what she learned, making her nervous. I tried to boost up the confidence this time. I asked her to try to understand things just passively and then prepare actively.

she explains them with the theoretical framework of economics.

(3) Linjimal Labrio:-

The personal interaction was highly appreciated by the mentee student. She pointed out the difficulty with respect to the requisite language skills as a barrier to read good quality/suggested reference books.

As a solution, she was motivated to read & depend upon the learning resources suggested in the first session.

Aechana M R

Parent Name: Sreedevi P.C.

e-mail: aechanamr431@gmail.com

(4) Sujatha S.

It has been pointed out that the decision to identify the economic aspects of social issues really gave a lot of insights into the regarding the application of various concepts studied in the Micro Economics course.

The student has been motivated to discuss at least one issue related to economy with her friends/ class mates at least in a week.

Session 4:-

Minutes of the mentor-mentee programme

Date & Time: 28/09/2018 @ 3:30 PM
Venue: 2nd MA Class Room

Participants of the Programme:-

- (1) Ananthu M.S.
- (2) Christudayas B.
- (3) Lijya and Lathia
- (4) Sujatha S.

Discussion/ Decisions

The meeting evaluated the outcome of previous session. All the participants pointed out

Aechana M.R. is selected as a Mentee from II Year Honours Batch due to the performance drawbacks in exams.

9/7/2018

Aechana M.R. is one of the energetic students of the class. But she did not do well in the test papers. That is why she was called for discussing her difficulties in studying. Aechana is a trained dancer too.

But she normally doesn't come forward for performances. Aechana is close to only very few friends in the class. Though combine studies are arranged in the class, Aechana is not able to utilise it to the maximum. In the beginning she was seen sometimes absent in the class. In order to

avoid absence, she was made the class leader also. She is very active as the class leader. I advised her to be friendly with others and suggested some strategies to improve her studies.

14/8/2018

Aechana seemed very happy with the mentoring session. In the present session, main discussion is done on reading news papers regularly. All students actually like to or wish to read news papers. But when difficulty arises, they will leave it in the midway. Same happened with Aechana also. I asked Aechana to read the editorials first for one week and meet me to share the experience.

26/9/2018

that the programme gave them more insight & curiosity in the threefold aspects.

However, they still face a lot of problems in dealing with the mathematical treatment of subject matter in many courses.

It has been advised to follow the geometrical treatment of the subject matter to understand the essential reasoning beneath every theoretical construct.

It has been decided to continue with the presentation of social issues by focusing upon the economic aspects of them as all mentees were satisfied with the outcome.

Discussion/ Decision

The mentor presented the problem of existing inequity in the land acquisition by using the

framework of environmental economics, her presentation was a group activity however each student presented different aspects of the problem. They have used the various valuating methods to estimate the cost & benefit of the road widening project. Even though they have not quantified the cost & benefit, they clearly pointed out the various valuating methods to be used for each category of cost & benefit.

A discussion has been followed & the monitor pointed out the inconsistency with respect to the valuating methods.

The meeting has been concluded with the decision to present the economic dimension of the problems in an individual manner in the next session.

To conclude, it has been unanimously pointed out that exercise gave them more confidence to study the subject seriously & helped them to grasp the real world relevance of theoretical concepts.

Bhavana Sankthosh is selected as a Mentee from II Year Honours class because of her different interests regarding her career and also due to her health conditions.

9/7/2018

Bhavana, in the first meet shared her interest in acquiring a job though she joined for B.A. Honours. As she prepares for competitive exams, it is felt that she is not interested in attending the classes. She has a lot of absence in the class. She has a health problem of backpain too. And she said it as the main reason for absence in the class. Suggestions have been given for her preparations in the meeting.

14/8/2018

Bhavana came for a mentoring session on 14/8/2018. Her health problems is a continuous disturbance. Even in classroom, continuous sitting is a problem for her. All helps are offered to Bhavana for her studies in due consideration to her health conditions.

26/9/2018

Students in the class always supported Bhavana. She has improved her performance in assessments. She is happy with the overall circumstances.

Time : 3:30 pm

A common mentoring session is conducted for the whole class.

From the individual mentoring sessions, an idea emerged is that common mentoring sessions can add to the effect of individual mentoring sessions. Difficulties faced by individual students in studies can also be solved through the support of the classmates too. The session mainly concentrated on discussions regarding the common facilities in the Department. All are requested to use the common facilities to the maximum extent. The need for

Connection one could draw between theory & practice.

In this manner, the programme gave them lot of confidence to study the subject more seriously.

The meeting discussed the various career options available to post graduates in and around various organisations of the city also.

Mentoring Session

Date : 15/11/2018

Venue : Classroom

Time : 3.30

As examinations are near, a mentoring session is conducted. The main discussion in the meeting is on tips for preparations for exam.

Many students shared their different concerns regarding the study pattern and good performance in the exams.

The students pointed out difficult portions of different papers and decision is taken on conduct of

special classes for the said portions. A series of class test papers are also decided to be conducted for the students. Such suggestions have come from student side.

Due to her physical disability, she may not be able to express herself like other children, but she does n't put in any effort (honestly speaking) in examinations, projects, etc. It ^{has been} understood from the conversations of students and my colleagues (teachers of the department) that Jepeera won't be able to adjust in an atmosphere which is different from that of Maharegar College, especially, Dept. of Economics, Maharegar's College, Ernakulam.

she behaves irrationally at times. Even if she is not eligible to get a certain level of marks in class tests or exams, she creates a commotion. She is not ready to accept failure. She has to be aware of her disability and the need to survive with this disability in a world which is different from the Dept. of Economics, Maharegar College, Ernakulam. The teachers and students of the department have been giving her all privileges, which even other disabled children scarcely get. In spite of all this, she is not fully satisfied. The students who write exams on her behalf (as scribe) have been putting in their best efforts. But, if at all, for any reason,

He came to me in the morning at Sunday. Asked about his continuous absence from class and he informed about his disease is interesting. He explained on the medication he is taking and the rest. he needs a lot of medicine. By having a look at his mark in first and second year it has been found that in almost all papers he has been failed and has not shown any interest in his studies. Asking him to undertake more on studies his studies we have

a particular student fails to help her in academic matters, she gets very disappointed, pained, emotion and even angry with that student. She should understand her limitations. Whatever benefit she has received through education is due to the dedicated efforts of her fellow class mates. Her contribution is negligible. It is the duty of teachers to teach, but students help her in academic matters out of love and compassion. It is high time that she realises all these things. It is very difficult to convince a person like Jejeena. I find it very difficult to mentor a student like her, probably because I am not trained to do.

2) J Sowmya Bhakthan, daughter of Jayachandran Bhakthan is a very bright student from the Hindu Brahmin community. She did her school education at Kendriya Vidyalaya, Post Trust and graduated from Sacred Heart College, Thervara. Right from school days, she was good at academics. She had secured A1 in all subjects both in Class X and XI. She was the topper at Sacred Heart College, Thervara in B.A Economics. She used to participate in co-curricular activities too in her graduation days.

However, after coming over to Maharaja College, Gowriyur couldn't

Had a discussion with him on the papers he regave special attention. He explained on the dissertation he filed in studying the subject. Some topics were discussed and asked him to prepare notes on that.

On that day we discussed on his Performance, his family and his upbringing.

We had a discussion on his future plans and ambitions. He likes to be a govt. servant. How to crack Public Service Examination and

attain great height in academics. Although she is intelligent and hardworking, she could not achieve the best results. On mentoring, it was noticed that she faced academic stress here. The atmosphere at Mahaveer's College, according to her, is much different than that of her former institution. There was an adjustment problem. Although she is a student who is punctual and disciplined, she is not able to be the best student in academics in her class. She initially found it difficult to mingle with all the students. She became friends with the studious ones, but couldn't

adjust with the other students. Moreover, she disclosed that she faced severe mental stress during end semester exams due to some trouble makers over phone on the eve of her exams. She fared poorly in a few subjects as a result. But, at present she has overcome some of her stress related problems and is performing well in academics.

She comes from a humble background. Her father works as a security guard and mother runs a stationary shop. She is the only child of her parents. Naturally she possesses the disadvantages of being a single child - self centred.

3) Vishnu K, is the son of Kurnaman of Wayanad. He belongs to the Scheduled Tribe Category, Kattunaikan of Hindu Community. Coming from a very poor background (both social and economic) he is the weakest student of the class. He secured admission due to reservation, as he belongs to the marginalised group. He was the student who got admission to the class with the least marks in the qualifying exam. Naturally, he is poor at studies. He finds it very difficult to communicate in English. He finds most of the subjects tough. ~~He~~ puts in very little effort in studies.

I noticed her at the beginning of the 3rd year of their BA Honours programme. When I enquired about the students pass percentage in all courses, this girl stood up and she said that she had back papers.

After that I had several meetings with her. She is regular in her classes. She is obedient and punctual. Although she couldn't do her studies well. She said that her problems with English language, mathematics and statistics. She studied in Malayalam medium school up to tenth standard. I suggested her teachings of daily everyday and interesting news in English

language and new English movies. Then she could improve her spoken English and writing English.

For mathematics and statistics I suggested to study the basis of mathematics and statistics. If necessary, go for additional course. She did the same and collected English papers of previous exams and studied well. She appeared supplementary exams and she passed all exams.

She tried her best to come out with flying colours. She succeeded to a certain extent. She passed all exams at the end of the programme.
