Remarks:

- The syllabus content is adequate
- Normally good
- Employability is a major problem
- Job opportunity is a concern
- Elective papers for this program needs serious revision.
- Needs periodic updation, without fail
- Helps to clear UGC NET exams
- Considering the general atmosphere, unable to do full justice

- 
- Need to include field trip for collection of specimens
 - Well prepared curriculum.
 - It could be more creative.
 - It could be more practical
 - More theoretical in nature
 - For a subject like History, library books need to be updated with latest books on the subject
 - Application level needs more focus
 - Must add some ecology issue site visit and study as a minor team project
 - Need to be added Internship programs

- Course is well structured and fit well with the programme
- Curriculum is fine and need some environmental aspects
- Need Interdisciplinary approach
- Need revision to cope with the emerging needs of employment more skill orientation and aptitude generation has to be incorporated.
- Field /study trips can be incorporated in the curriculum as texts related to travel narratives, environmental and film studies are part of the syllabus
- Syllabus has to be revised as some areas within still remain grey. In some modules an entire text is prescribed along with other essays which is practically impossible to finish within the stipulated time.
- Syllabus is suited for higher education and employment purposes
- Curriculum needs improvement : 1. Only test paper and assignments are part of the assessment .Instead of that test paper , seminar and term paper must be made the mode of evaluation. Assignments are not effective, Seminar must be made mandatory for every paper in the UG and PG level. To improve the writing skills of the students term paper must be introduced and strictly evaluated .Adequate measures must be strictly followed to improve the quality of education in the UG and PG level.
